

Opt-Out Information

If you already have an alternate health insurance that offers the minimum required coverage, you can get a refund of the health insurance from the Student Association of GBC.

Procedure to Opt-Out from the College's Health Insurance Coverage

- Student completes and signs the Waiver Application Form available at the Student Association Office. Student Health Benefits staff will help the student put in the correct information on the Waiver Application Form.
- Student has to fax the completed waiver form to the student's insurance company overseas. The official representative of the student's Insurance company overseas will complete and sign the form. By completing and signing the Waiver form, the Insurance company overseas agrees that any cost and liability for the student will be shouldered and paid for by that Insurance company.
- A copy of the English policy from the insurance company overseas must be attached to the completed and signed Waiver form.
- These two documents once completed must be faxed to the Student Association office of George Brown College at 416-415-4719 or 416-415-2491.
- Student needs to ensure that the Health Benefits Office receives their waiver application from their insurance company overseas. The student insurance company overseas is responsible to send the completed waiver application and English policy before the opt-out deadline. Document received after the deadline will not be accepted by the Student Health Benefits Office.

IMPORTANT NOTICE:

Please note that Application of Waiver forms that are not completed properly or with missing information or signatures, and applications of waiver faxed directly by the insurance company overseas without completing the above procedures will not be accepted by the Student Benefit Staff.
